★★★★★ Satisfied from beginning to end

If you live in the Tri State area, don't waste your time interviewing or getting estimates from others, just call Bull Frog. Everything was perfect, estimate (didn't go a penny over), workmanship, timely, and the best part....the work was done by pros who left no stone unturned and went the extra mile without my asking. Couldn't be happier. The entire staff was exceptional: Dino, Mike, Manny, their helpers, the Office Staff, and even Santa Claus. [more...](#)

★★★★★ There is no one person I can recognize for their exceptional service because everyone I de

The entire staff was very professional, catered to my needs, and were friendly. Dino was the front runner for Bullfrog Builders for me. He set the tone and was there for me when I wasn't even sure if I would go through with the contract. It was because of him that I didn't cancel. Having such a huge and expensive job done on your home does tend to send chills up your spine. After hearing so many horror stories, you're never sure if you made the right choice of contractor. I made the right choice and have said so to anyone who'll listen. Dino's reassurance and frank honesty sealed the deal. He sent the right team to work with me as well. If I wasn't satisfied, neither was he and he fixed it immediately.

I love Dino, Jessie, Steve, John and Braulio. They never said no to me and were always available to listen to and solve any concerns I may have had regarding the many tasks necessary to complete the total contract agreement. [more...](#)
